

Writing:

As well as our Success for all (SfA) learning, we will also be improving our writing through our topic work in the afternoons. We will be considering our use of vocabulary in our sentences as well as editing and improving our writing. We will also be developing our knowledge of spelling patterns and dedicating time to improve handwriting.

Science:

At the beginning of the term we will be talking about gravity and developing our knowledge of the forces we experience daily. We will also be completing a number of experiments that deepen our understanding of forces.

Maths:

In Maths we have been considering our use of place value, applying this to worded problems. In addition to this, we have been ensuring that we have a method for all four operations, again applying these to age appropriate mathematical problems.

PSHE:

We will be talking about fair trade and how our food is produced. This topic then leads into discussing the effect that humans have had on the planet.

Computing:

We will be considering a number of different issues surrounding online safety - ensuring the children are safe whilst using the internet. This includes searching and checking the infor-

Art:

We will start the term by producing pieces that represent movement using sports silhouettes. After this we will produce pieces that consider perspective.

History:

Over the course of the term we will be learning about the ancient civilisation - The Mayans. We will consider artefacts from the time and relate them to our own daily lives. We will consider a number of aspects such as the Gods that were prayed to and the sports that they took part in.

French:

We are extremely lucky to have an experienced French teacher joining us on Monday afternoons to work with the children and begin to develop the level of French vocabulary necessary at secondary school.
